

Profile 5 Installation Instructions:

If you already have Profile 5 installed and just need the mapping update, start at line 9.

1. Click on **Profile5Setup / version 5.1.35**
2. Welcome to the Profile 5 Setup wizard will appear
3. Click on Next
4. Review the Vericom License Terms and Click I accept the terms of this agreement
5. Click Install
6. Next you will see that Profile 5 has been successfully installed
7. Click Run Profile 5
8. When prompted, enter license key
9. Next click on **vericomProfile5MapUpdate.exe**
10. *Click Update Profile 5
11. Click Exit Update
12. Profile 5 is installed

After the Update file is started, your computer may show this message. If this message does appear, click the 'More Info' option. After you click 'More Info' the window below will display. Click the 'Run Anyway' button.

Click the 'Run Anyway' button.
